SAMSUNG

European Ecodesign Regulation

Our continuing commitment to sustainability

As the demand for powerful, feature-rich smartphones and tablets increases, so to does the demand for energy and raw materials. With that, comes increased environmental impact.

From June 2025, new European Ecodesign requirements will come into force, harmonising standards and requiring manufacturers to prioritise resource efficiency and operability, improving the environmental performance of products.

Enterprise Edition

Ecodesign requirements

IP68

Resistance to accidental drops, scratches and protection from dust and water

Our B2B range goes beyond the minimum ecodesign requirements of IP44 and includes several products with IP68 ratings

The ability to be disassembled and repaired

Making critical spare parts available to repairers within 5-10 working days, and until 7 years after the end of sales of the product model on the EU market

The provision of appropriate information for users, repairers or recyclers

Providing non-discriminatory access for professional repairers to any software or firmware needed for the replacement

The availability of operating system version upgrades

Pushing updates at least 5 years from the date of the end of placement on the market of the last unit of a product model
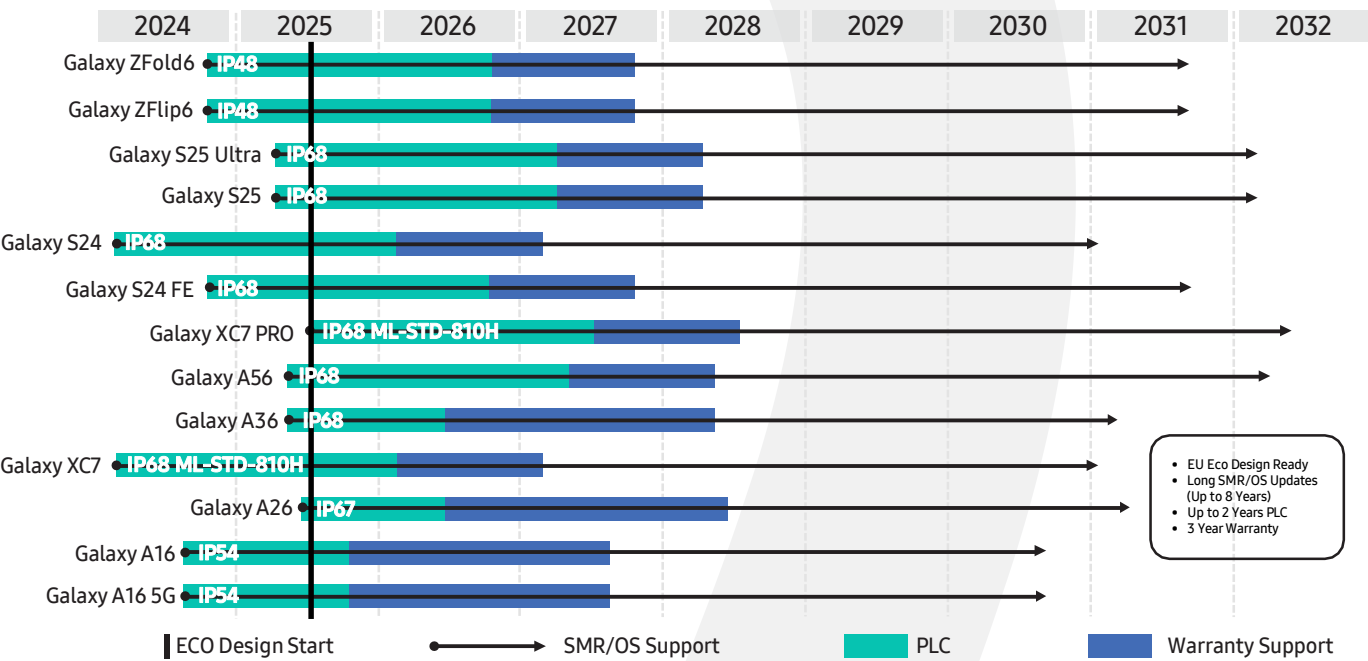

Battery durability

Devices withstand at least 800 cycles of charge and discharge while retaining at least 80% of their initial capacity

Ecodesign Enterprise Edition smartphone roadmap

Model	2024	2025	2026	2027	2028	2029	2030	2031	2032
Galaxy ZFold6	IP48								
Galaxy ZFlip6	IP48								
Galaxy S25 Ultra	IP68								
Galaxy S25	IP68								
Galaxy S24	IP68								
Galaxy S24 FE	IP68								
Galaxy XC7 PRO	IP68 ML-STD-810H								
Galaxy A56	IP68								
Galaxy A36	IP68								
Galaxy XC7	IP68 ML-STD-810H								
Galaxy A26	IP67								
Galaxy A16	IP54								
Galaxy A16 5G	IP54

Samsung sustainability expansion

01 Increased use of recycled materials in internal modules

02 Completely recycled exterior on most models

03 20% recycled Armour Aluminium

04 Recycled gold and copper

05 Establishment of a recycled battery production system for Galaxy devices

Durable, secure, made for business.

Our latest Enterprise Edition device the Galaxy A56 is an enterprise mobile device designed to fit specific needs. Packed with core features to enhance business productivity, it provides enhanced durability, advanced security, and powerful performance.
