

NEXUS HIS API

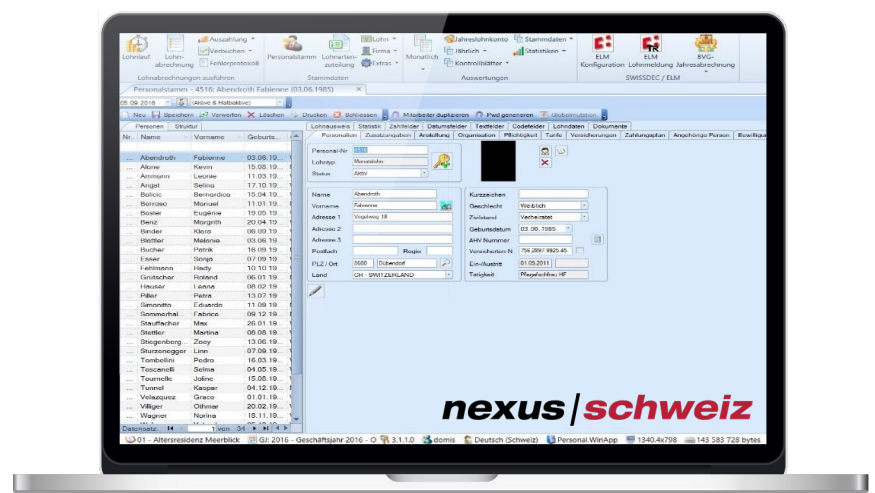

ENTER ONCE. USE EVERYWHERE.

Thanks to intelligent master data synchronization, employee and resident data only needs to be entered once and is automatically transferred to SmartLiberty. Any changes are immediately available throughout the entire system, eliminating duplicate entries, reducing errors, and significantly simplifying administrative processes.

This ensures that staff always work with up-to-date information and benefit from efficient, seamless data management.

SYNCHRONIZED INFORMATION

- ✓ **Profile picture**
- ✓ **First name, last name**
- ✓ **Phone numbers**
- ✓ **Function and role**
- ✓ **Room information**
