SMARTLIBERTY
MORE TIME FOR CARE

motica visit

THE DIGITAL **INFOPOINT**

The intelligent visitor display replaces traditional nurse call stations and doorbell systems, providing visitors with easy access to information and the right points of contact.

Visitors can directly reach the care staff, instantly see which team members are currently on duty, and get to know the care team. In addition, motica visit enables fast and easy resident searches, significantly improving visitor orientation and the overall visitor experience.

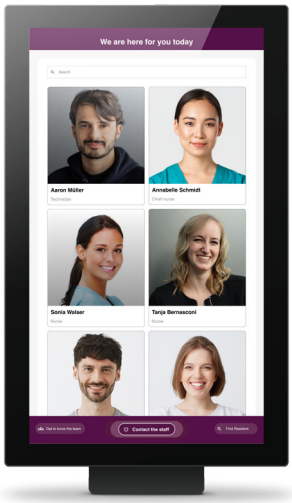

KEY BENEFITS AT A GLANCE:

- **Replacement for traditional nurse call buttons and doorbell systems**
- **Display of staff currently on duty**
- **Easy resident and staff search**
- **Direct contact with the responsible staff member**
- **Introduction to the care team**
- **Improved orientation and greater independence for visitors**

OVERVIEW
OF THE FEATURES

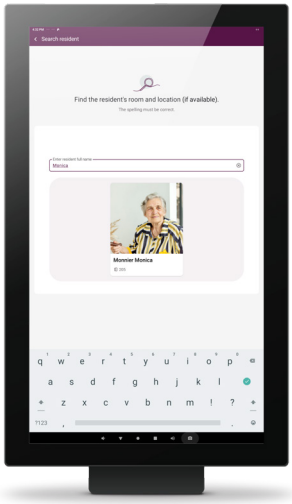

WHO IS ON DUTY TODAY?

Visitors can instantly see which team members are currently on duty, including their photo and role.

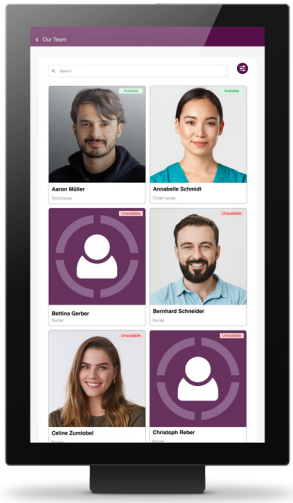

CONTACT THE TEAM

Reach the responsible team directly with a single tap on the display.

FIND A RESIDENT

Display the resident's room number and, when available, their current location.

GET TO KNOW THE TEAM

View team members along with their photo, role, and current availability.

motica visit creates a modern, welcoming reception area. Visitors and family members can quickly find their way around, access the information they need, and easily reach the right contact person at any time. Care staff are relieved from repetitive information and wayfinding requests, allowing them to dedicate more valuable time to resident care and support.
